

# Mass Downloader for DocuLink

## Optima Assets - Solution Package

Mass Downloader for DocuLink enables the downloading of multiple attachments at once for any DocuLink view.

### CHALLENGE

OpenText DocuLink does not provide an out-of-the-box feature to support the common use case of mass-downloading attachments.

### WHO IS THIS SOLUTION FOR?

Any company using OpenText DocuLink views.

### SOLUTION OVERVIEW

This solution enables the mass download feature in any DocuLink view by adding a download button allowing the selection of any documents displayed to download them simultaneously, which is a significant time-saver and productivity booster for users that download multiple documents as part of their day-to-day activities.

### KEY FEATURES

#### File naming

Each filename includes information about its SAP object relationship for easy reference.

#### Index file

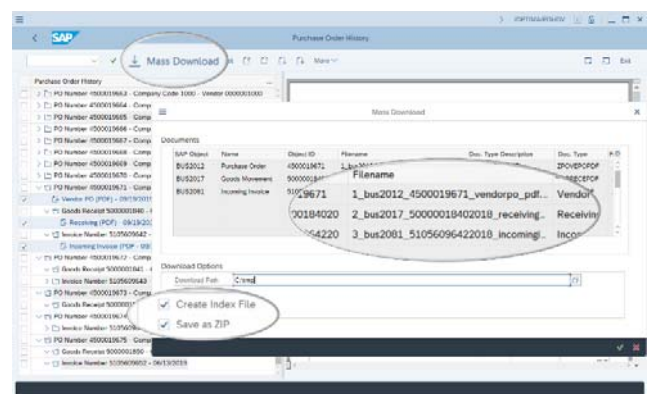

An index file can be generated along with each download containing information about the attachments, such as, file name, business object, etc.

#### Download attachments as .zip file

Users can download multiple attachments as .zip file.

#### Out-of-the-box DocuLink integration

Mass download feature can be integrated with most DocuLink views out-of-the-box.
