Orphan Barcode Tool for DocuLink
Optima Assets - Solution Package

Orphan Barcode Tool for DocuLink helps users to easily identify and correct documents containing unmatched barcodes that were received in SAP from an external source.

CHALLENGE

There is no user-friendly solution in the SAP system to search and correct documents with unmatched barcodes.

WHO IS THIS SOLUTION FOR?

Any company that processes external barcodes in SAP and has SAP Document Access by OpenText.

SOLUTION OVERVIEW

This solution package provides a user-friendly DocuLink view to search, browse and correct documents with unmatched barcodes that have been received from an external source.

KEY FEATURES

Barcodes search
This solution allows to quickly identify unmatched documents containing barcodes.

**In-place display of documents**
The two-pane navigation view allows to display documents on the same screen by double-clicking on them.

Barcode correction
Users can correct the barcode value from the search results screen with just one click.

Document deletion
Users can eliminate undesired documents with barcode errors directly from the view.
