

PoD Ingestion using Barcodes

Optima Assets - Solution Package

This Solution Package streamlines the time-consuming task of scanning each Proof of Delivery (PoD) and manually linking it to the corresponding SAP Outbound Delivery.

CHALLENGE

Speed up and increase processing efficiency of the ingestion of signed PoDs using barcodes.

WHO IS THIS SOLUTION FOR?

Any company that uses Archiving and Document Access for SAP (a.k.a. Document Access) and generates Proof of Deliveries (PoDs) in SAP.

SOLUTION OVERVIEW

This solution eliminates the need of manual scanning and indexing of each signed proof of delivery through the use of MFPs and automated barcode indexing.

Users simply scan signed PoDs through their MFPs which get automatically linked to the corresponding Outbound Delivery in SAP.

KEY FEATURES

Automated indexing

Signed PoDs are automatically indexed using barcodes.

Mass processing

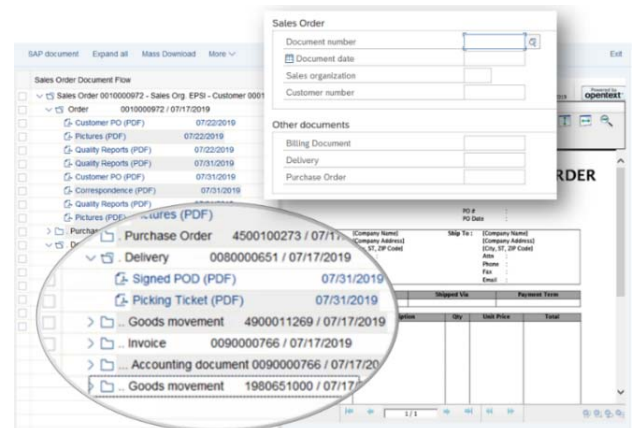

Batches with multiple signed PoDs can be processed per scan.

Simplified process

To perform this task, users just need to put signed PoDs into the scanner and hit scan.

Secured repository

Documents are stored in a secured ArchiveLink-compatible repository.

ABOUT OPTIMA CONSULTING

We provide ECM strategy, design, implementation, and the management of large-scale enterprise content management solutions such as SAP, OpenText, Microsoft & Taulia. With over 60 consultants with average of 15 years around ECM and enterprise solutions we focused in implementing OpenText solutions around Content.
