

INCREASE VISIBILITY AND CONTROL OVER YOUR SPEND.

A clear spend management strategy is critical for any business.

The balancing act of managing and optimizing spend in today's volatile marketplace is challenging.

Implementing a real-time, intelligent spend management strategy is one of the best ways to minimize uncertainty. Companies that successfully develop an intelligent and effective strategy can usually focus better on innovation and growth.

Who we are

At Optima, we specialize in helping companies increase visibility and control over their spend using SAP Spend Management solutions like Ariba, Fieldglass, Taulia and OpenText across the Intelligent Enterprise.

- **Strategic Advisory:** Roadmapping, Business Case Analysis, Assessments
